NEW LAUNCH

Genesystel Introduces its all- new Complete Solution Packages-

Having partnered with the major telecom players like TPG/AAPT and Avaya, Genesystel offers its solutions of business phone and broadband in Australia to small and medium businesses, taking an edge over the others in terms of provision of quality services.

The Complete Solution package for small to medium businesses includes Voice, Data and Avaya Hosted PABX solution at economical rates. The Complete Solutions Package offers a combined solution to all the telecom needs for small to medium businesses. A new PABX system bundled into either a 36 month or 60-month telecom services package which includes not only the phone-system but also voice and data services. [Read more >>](#)

MORE FROM GENESYSEL

How can switching to Hosted PABX benefit your business?- Hosted PABX promotes easy accessibility, effortless relocation of business, simple web interface and takes away the burden of manual updates. [Read more >>](#)

Do not Let ISDN Shutdown affect your Business- Telstra will cease the sale of ISDN2, ISDN2 Enhanced, and ISDN 10/20/30, DDS Fastway, Megalink, and Frame Relay products for both the wholesale and retail customers. [Read more >>](#)

Importance of VoIP for your business: How and why you must use it- Business Voice over Internet Protocol comes with features, functions, and pricing that outclasses the traditional telephone lines including ISDN. [Read more >>](#)

Fibre Optic v/s Broadband Internet services- Multiple ways help you make a wise choice between fibre optic internet providers and broadband service providers. [Read more >>](#)

Hosted PBX or on premise phone systems- Which works better for your business?- It is evident that the shift to a Hosted PABX system is beneficial regardless of which system is ultimately chosen. [Read more >>](#)
